KFAS Overview

Vision:

“A thriving culture of science, technology and innovation (STI) for a sustainable Kuwait”

Mission:

“Stimulate and catalyse the advancement of STI for the benefit of society, research, and enterprise in Kuwait”

The Kuwait Foundation for the Advancement of Sciences has a 40-year history of advancing science and technology in the State of Kuwait. It was established with the aim of harnessing science and technology to promote modernisation, improve the quality of life and underpin a sustainable future for the Kuwaiti people.

In line with his long-term vision to advance the state of science and technology in Kuwait, the late Amir, Sheikh Jaber Al Ahmad Al Jaber Al Sabah, supported by the leaders of the private sector companies, issued an Amiri Decree establishing KFAS in 1976 to encourage and advance the understanding, application and use of science and technology more widely across society.

KFAS Centers:

- The Scientific Center of Kuwait (TSCK)
- Dasman Diabetes Institute (DDI)
- Sabah Al Ahmad Center for Giftedness and Creativity (SACGC)
- Jaber Al Ahmed Center for Molecular Imaging (JACMI)
